TWO TYPES, FIVE DIMENSIONS

The collection consists of 5 umbrellas: 3 with central pole and 2 sidepoles, each time with a square canopy in different sizes.

Elegant Shade

NOT JUST A FRAME

The frame is the spine of the umbrella and with the caractère collection this is very elegant and solid! All elements are octagonally shaped which makes the frame look elegant and neat. The umbrellas thank their durability to the aluminium that is thicker than average. However, the pole and the ribs look thin and slim. The transition from pole to base is evenly subtle as you don't see it!

STRONG, PATENTED DESIGN

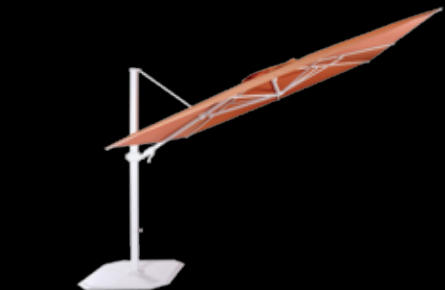

Rarely one line of umbrellas launches that much novelties! For instance, the canopies have a gradient of 10° which is exceptionally taut and flat. The octagonally shaped details, the sophisticated systems to open and close and the innovative connection between base and pole turn these umbrellas into characteristic items for every type of exterior.

CENTRAL POLE push up
□ 200X200 cm
□ 230X230 cm

CENTRAL POLE handle
□ 400X400 cm

SIDEPOLE
□ 300X300 cm
□ 370X370 cm

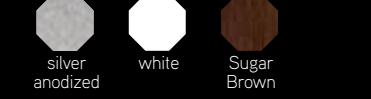

WHAT ARE YOUR COLOURS?

Match your umbrella with other outdoor elements. You can choose from 3 frame colours and 4 different colours for the canopy. Plenty of choice! Is the combination you had in mind not available? Then Jardinico will make the canopies to measure for you!

FUNCTIONALITY AND ERGONOMICS

It's up to you to determine where you want the shade! All umbrellas can turn 360° and tilt in height. User friendliness and functionality were prioritized in the development of the opening systems. On the other hand, the canopies are handmade with Dickson Marine Quality fabric, top-quality for outdoor use with an exceptional resistance and colourfastness.
